BEFORE YOU BEGIN

How It Works

i **Every treatment begins with a free doctor consultation, with no strings attached.** Hormone care is the exception: it starts with the Annual Panel or a paid consultation (see chapter 5). Take all the time you need to decide.

ii Prices are per session and include the doctor's fee. No hidden costs.

iii Several treatments can be combined on the same day, as your doctor advises.

iv The number of sessions is always set by your doctor after an in-person assessment.

v Treatment names marked with an arrow are clickable. Tap one to open a plain-English page about that treatment.
